About

I am a Junior Developer with a background in Civil Engineering, eager to keep learning and contribute to real-world software projects. Having built end-to-end applications, I bring a solid foundation in analytical thinking and problem-solving, along with a genuine enthusiasm for building clean, functional, and user-friendly applications. I'm excited to collaborate with experienced developers, gain hands-on practice across the stack, and continue growing my skills.

Skills

TypeScript · Full-Stack Development · Javascript · Node.js · React.js · React Native · HTML · Cascading Style Sheets (CSS) · API · JSON · PostgreSQL · Database Management System (DBMS) · Express.js · Project management · Agile · Git · GitHub · Software Engineering · JQuery · Scrum · UI/UX Design · Quality Assurance Processes · Engineered Standards

Projects

Earth Table Co.

Aug 2025

www.earthtableco.ca/ | React, Node.js & Supabase E-Commerce Solution

- A full-stack e-commerce app built end to end with React, Node.js, Express, and Supabase. Integrated third-party APIs and optimized workflows to improve business operations. Features include responsive UI, secure checkout with Stripe, product management, and order tracking. Focused on creating an intuitive, user-friendly interface, writing maintainable code, database architecture, team collaboration, and version control with Git.

Byte to Bite - Desktop and Mobile

May 2025

github.com/TayrineSoares/byte-to-bite | Recipe finder app that turns kitchen ingredients into meals

- A full-stack recipe finder app built with React & React Native, Tailwind CSS, Node.js, Express, Convex + Clerk, and PostgreSQL. Collaborated in a team to deliver both desktop and mobile versions with features such as ingredient-based search, recipe saving, and custom cooking timers. Focused on UI/UX design, state management, RESTful API integration, and version control with Git.

QuizApp

Feb 2025

github.com/TayrineSoares/midterms-collab | A Quiz Creation and Sharing Platform

- A full-stack app where users can create, share, and attempt quizzes. Built with Node.js, Express, HTML, CSS, PostgreSQL, and Git for version control, it focused on UI/UX design, routing, database architecture, and teamwork in a multi-developer environment.

Photolabs

Mar 2025

github.com/TayrineSoares/photolabs | React SPA for viewing and favoriting photos

- A client-side photo gallery app built with React, JavaScript, and CSS. Integrated with an external API to fetch and display photos dynamically, enabling users to browse, favorite, and engage with images across categories. Focused on state management and clean code practices.

Tweeter

Jan 2025

github.com/TayrineSoares/tweeter | A Single Page Twitter clone

- Dynamic app built with HTML, CSS, JavaScript, and jQuery. Used AJAX to fetch and submit posts without page refresh, enabling seamless and responsive interactions.

Education

| | |
|--|----------|
| Lighthouse Labs Diploma Web Development The program covers core skills in JavaScript, Node.js, Ruby on Rails, and React JS, along with automated testing, PostgreSQL databases, and responsive UI design using HTML, CSS, and modern tools. It also includes software architecture and computer science fundamentals. | May 2025 |
| ILAC Certificate Service Excellence for Business | Mar 2020 |
| PUC Minas Bachelor of Engineering (BEng) Civil Engineering | Dec 2015 |

Work Experience

| | |
|--|---|
| Pizzeria Libretto FOH Restaurant Supervisor / Server • Managed customer interactions and led daily operations to streamline workflows and enhance team efficiency, while training staff and fostering collaboration to uphold high service standards and deliver a remarkable, friendly dining experience in a fast-paced environment. | Toronto, ON, Canada Feb 2023 - Oct 2025 |
| The Simple Kitchen Cook / Restaurant Supervisor • Coordinated kitchen operations for a team of 6–8 staff while performing daily line cook tasks, leading to increased overall efficiency and a 25% reduction in food waste through continuous process improvements. | Toronto, ON, Canada Dec 2020 - Nov 2022 |
| Service Inspired Restaurants Line and Prep Cook • Awarded Rookie of the Year 2019 for outstanding performance and teamwork. | Toronto, ON, Canada Mar 2019 - Mar 2020 |
| Grupo Projeta Civil Engineer • Developed and managed a Quality Assurance (Q&A) system using Agile principles, reducing engineering department rework by at least 30% while ensuring compliance with industry standards and specifications. • Designed and analyzed over 200 concrete structures using engineering software (AutoCAD, TQS, and Cypecad), resulting in an average of 15% reduction in material costs and demonstrating strong technical and analytical skills. | Nova Lima, MG, Brasil Jan 2016 - Feb 2019 |
